Summary

Jr. Full Stack JavaScript Developer beginning new a career after completion of Treehouse Techdegree and Code Fellows coding bootcamp. Experience includes completing 12+ projects and final capstone project (MERN Stack SPA) using MongoDB, Express, React, Node, HTML, CSS, Bootstrap and Google Maps API. Eager to learn, open-minded, and passionate about technology.

Skills

Web Development Languages: JavaScript, HTML, CSS
Frameworks: Express
Libraries: Node, React, jQuery, Bootstrap
Database: SQL, Sequelize, MongoDB, Mongoose
Build tools: Gulp, Babel
Authorization: Bcrypt, OAuth
Testing: Mocha, Chai
Other: Linux, Bash Shell, Git/GitHub, AJAX, Sass, ES6, API's, Agile, Heroku, Digital Ocean
Professional: Self driven, reliable, quick learner

Education

Team Treehouse | Full Stack JavaScript Techdegree | 2019
- Completed 12 real-world projects involving 38 courses, 242 quizzes and 203 challenges.
- Technical skills included JavaScript, HTML, CSS, GitHub, JQuery, Node.js, Express, Pug, Gulp, React, SQL, and REST API architecture.
- License 12801343
- Created a portfolio website which is viewable at www.palmerrocks.com

Code Fellows | Intensive Coding Bootcamp | 2016
Code 201: Foundations of Software Development
- The course included defining a web page structure, implemented layout styles using CSS and HTML, writing JavaScript that leverages fundamentals of computer science and the foundations of using industry tools including Git and GitHub.

Code 301: Intermediate Software Development
- An intense course that includes a common core of software development, including MVC architecture, object-oriented and functional programming, and computer science fundamentals such as basic data structures and algorithms. Created and launched an integrated web app using in HTML, CSS, and JavaScript, with the help of third-party API's and libraries from around the web.

Work Experience

Brewer | Pike Brewing Company | Seattle, WA | 03/2007 – 10/2015
- Responsible for monitoring and executing all aspects of the brewing process from brewing to packaging.
- Required a high degree of problem-solving, attention to detail, and the ability to execute critical, and timely decisions with little supervision.
- Responsible for onboarding new employees in brew house operations & procedures.

Mobile Beer Bottler | Mobile Bottling Source | Seattle, WA | 06/2005 – 03/2007
- Worked directly with each client's brewery staff to bottle their product in a sanitary and efficient manner.
- Managed own schedule, resources, and supplies for each client's bottling with very little supervision.

Press Assistant | KP Corporation | Seattle, WA | 05/2002 – 06/2005
- Assisted the Sr. Press Operator in the daily operations of a 6 color printing press. Managed paper supply, ink levels and general maintenance of the press.
